

1 Kitchen Shape & Dimensions

Begin in any corner of the room with a tape measure and measure to an adjacent wall.

Important Notes: Always measure in inches only. Use gridlines on the 2nd page to draw your kitchen layout and record measurements.

Suggested Tools

Tape measure

Paper & pencil

2 Measure Windows & Doors

Window Measurements

Window	A	B	C
1			
2			
3			

Door Measurements

Door	A	B	C
1			
2			
3			

3 Wall Openings

Measure the distance from the wall corner to the outside edge of the opening and mark it on the drawing. Measure and record the length of the opening. Repeat this process for all openings. (Example 1, Floor Plan)

4 Utility Supply Lines

Draw a side view plan of each wall. Record the distance from the floor to the ceiling. If you have soffits, include the measurements on the layout. Use the symbols shown below to mark water lines, drain lines, and gas lines. (Example 2, Elevation)

W - Water Lines
D - Drain Lines
G - Gas Lines

Example 1, Floor Plan

Example 2, Elevation

5 Appliances & Clean-up Selections

Please provide as much information as possible about your appliances.

All dimensions in inches (example: 45")
